Post-trial Questions

This document showcases questions asked after participants finish with official trials for each modality.

1. Please rate your performance on this set of trials on a scale from 1 to 7. For reference: 1, "I was way off"; 4, "I did alright"; and 7, "I had perfect accuracy". How accurately do you think you were able to estimate these proportions using the [visual/tactile/tabular] encodings?

2. On a scale from 1 to 10, How much mental and perceptual activity was required? Was the task easy or demanding, simple or complex? For reference, 1 being extremely easy and simple; 10 being extremely demanding and complex.

3. On a scale from 1 to 10, how irritated, stressed, and annoyed versus content, relaxed, and complacent did you feel during the task? For reference, 1 being extremely relaxed and complacent; 10 being extremely stressed and irritated.
